### Mapping the Bioeconomy - An Insightful Guide to Job Profiles Infographics

The Bioeconomy sector is an ever-evolving landscape of opportunities and innovative solutions to pressing global challenges. As we continue to transition towards sustainable practices and explore the full potential of biological resources, the demand for skilled professionals in the bioeconomy sector grows rapidly. To address this need, a comprehensive set of job profiles has been developed, providing valuable insight into the various roles and expertise required. The job profile infographics serve as a structured and informative visual tool designed to bridge the gap between the market's demands for specialised skills and the training provided by academia and vocational education and training (VET). By outlining different career paths within the bioeconomy sector, the infographics offer an accessible overview of the diverse range of job roles and the specific competencies required for each position.

### Dive into our regions!

BioGov.net offers an intriguing webpage titled "Regions" that provides a doorway to understanding each country's strategies and initiatives concerning bioeconomy. This page facilitates deeper comprehension of diverse regional approaches by showcasing profiles developed through collaboration among BioGov.net's consortium partners.

#### Highlights from the Bioeconomy Changemakers Festival

The Bioeconomy Changemakers Festival, organised by BioGov.net, unfolded across five different countries—Slovakia, Greece, Portugal, Italy, and the Czech Republic—between March 11 and 17, 2024. This festival served as a platform to educate and engage students and young professionals in the sustainable and circular bioeconomy, through a series of diverse, enriching events.
